Retroreflective sensor

CE

Model Number

RL91-6-IR/25/49/115

Retroreflective sensor with 5 m fixed cable

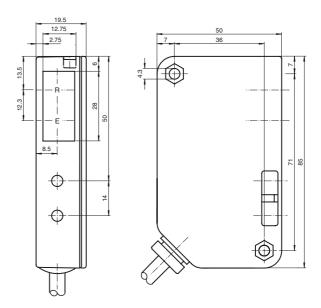

Features

- Retroreflective sensor for single-• beam closing edge protection
- Narrow housing suitable for small ٠ gaps
- Sturdy plastic housing •
- Various possibilities for mounting •
- Version with infrared light .
- Version for supply voltage of up to 30 • V DC
- Light on version

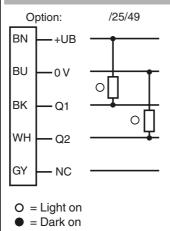

Product information

Concentration on the essentials is the hallmark of the 91 series. As ac/dc supply devices, these economical, reliable and easy-to-use photoelectric sensors can be used almost universally. Their narrow design means that they can be used in any environment.

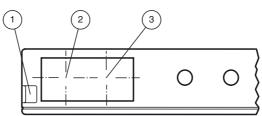

The single-beam photoelectric sensors of the 91 series are suitable for closing-edge monitoring for elevators, barriers and doors, as well as for object detection and object tracking in material handling systems.

Technical data		
General specifications		
Effective detection range		0 6 m
Reflector distance		0 6 m
Threshold detection range		9 m
Reference target		H85-2 reflector
Light source		LED
Light type		modulated infrared light
Diameter of the light spot		approx. 230 mm at a distance of 6000 mm approx. 2.5 °
Angle of divergence Ambient light limit		90000 Lux
Functional safety related param		30000 Eux
MTTF _d		1083.4 a
ndicators/operating means		1000.4 u
Function indicator		LED red, flashes when falling short of the stability control
Electrical specifications		Les rea, hadres when raining orier of the stability control
Operating voltage	U _B	12 30 V DC
No-load supply current	- D	< 100 mA
Dutput	.0	·····
Switching type		light on
Signal output		1 NPN, 1 PNP synchronized-switching, short-circuit protected,
		reverse polarity protected
Switching voltage		max. 30 V DC
Switching current		200 mA
Switching frequency		25 Hz
Response time		20 ms
Ambient conditions		
Ambient temperature		-20 55 °C (-4 131 °F)
Storage temperature		-20 75 °C (-4 167 °F)
Mechanical specifications		
Degree of protection		IP65
Connection		5 m fixed cable
Material		Luran [®]
Housing Optical face		Luran®
Mass		100 g
Compliance with standards and		100 g
/es		
Standard conformity		
Product standard		EN 60947-5-2:2007
		IEC 60947-5-2:2007
Approvals and certificates		
UL approval		cULus
		For overcurrent protection, install a fuse with a rated current of
		max. 5 A and min. 30 V DC
CCC approval		CCC approval / marking not required for products rated \leq 36 V

Operating principle

The retroreflective sensor contains the transmitter and receiver in a single housing. The light from transmitter is beamed back from a reflector to the receiver. If an object interrupts the light beam the switching function is initiated.
