

VISC� CE c US

Model Number

ML4.2-8-H-20-RT/110/115/130

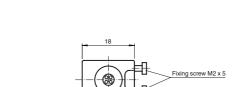

Background suppression sensor with 2 m fixed cable

Features

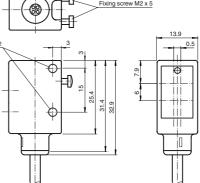

- Precise background suppression •
- Very small black-white difference •
- Small, sharp light spot •
- Metal-reinforced fastening holes
- Tamper-proof version with no adjustments
- Short response time ٠
- Push-pull output

Product information

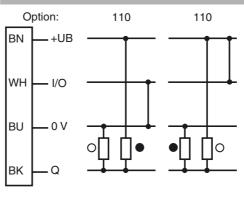

The ML4.2 series is characterized by a robust, powerful and standard design in a miniature housing. The housing offers IP67/ IP69K degree of protection, a scratch- and chemical-resistant lens, highly visible LEDs and robust all-metal bushings for mounting. Adjustable and tamper-proof sensors are available with a universal push-pull output and an electrical light ON/dark ON switch. The sensors have a high ambient light limit. Reflections from the background are suppressed. The unusually small, sharp light spot and the quick response time offer maximum switching precision on object edges.. Both red and infrared light sources are available. A high-performance fixed focus background suppressor is a useful feature. The sensors are suitable for precise object detection and open up a wide range of application fields.

Technical data			Accessories
General specification	IS		OMH-4.1
Detection range		7 20 mm	Mounting Clamp
Detection range max.		5 25 mm	
Background suppress	sion	starts from 25 mm	OMH-ML6
Light source		LED	Mounting bracket
Light type		modulated visible red light , 660 nm	
Black/White difference	e (6 %/90 %)	approx. 1 mm	OMH-ML6-U
Diameter of the light s	spot	approx. 1.5 mm at 20 mm	Mounting bracket
Angle of divergence		approx. 5 °	OMH-ML6-Z
Ambient light limit			
Continuous light		40000 Lux	Mounting bracket
Modulated light		5000 Lux	Other suitable acce
