## Background suppression sensor

# ML6-8-H-60-RT/59/115a/136

**Dimensions** 

#### **VISC**� CE c(UL US

#### **Model Number**

#### ML6-8-H-60-RT/59/115a/136

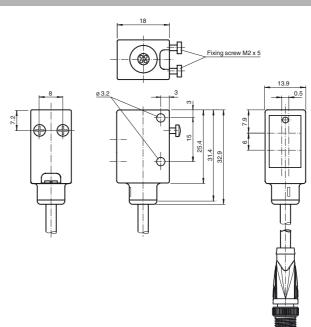

Background suppression sensor with 200 mm fixed cable and 4-pin, M8 x 1 connector

#### **Features**

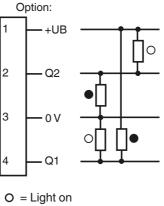

- ٠ Precise background suppression
- Very small black-white difference
- Small, sharp light spot
- Highly visible LEDs for Power-On, switching status, short-circuit, and undervoltage
- Metal-reinforced fastening holes
- Tamper-proof version with no adjustments
- Push-pull output

### **Product information**

The ML6 series is characterized by a robust, powerful and standard design in a miniature housing. The housing offers IP67/IP69K degree of protection, a food-grade lens, highly visible LEDs and robust all-metal bushings for mounting. Adjustable and tamper-proof sensors with a double push-pull output are available. The sensors have a high ambient light limit. Reflections from the background are suppressed. The unusually small, sharp light spot and the quick response time offer maximum switching precision on object edges. Clearly visible red light sources facilitates alignment. A high-performance fixed focus background suppressor is a useful feature. The sensors are suitable for precise object detection and open up a wide range of application fields.

#### **Electrical connection**

= Dark on

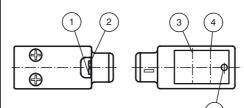

#### Pinout

#### Wire colors in accordance with EN 60947-5-2 (brown) (white) (blue) (black) BN BN BU BK

2

#### Indicators/operating means

1	operating display	green
2	indication of the switching state	yellow
3	receiver axis	
4	emitter axis
